

Bring Me The Horizon, YOUtopia

there's a place i wanna take you
but i'm not quite there myself yet
i'm getting better but there's still days
where i wish that i was someone else

but i know
there is a home
somewhere
beyond my bones
and i'm just too terrified
to dive inside

soul like a cemetery
hard to ignore
we're sick to the core
a world's been buried
where love is the law
a youtopia
(scream)

golden raspberry
for the performance in your head
stop pushing daisies
no one wants flowers
when they're dead

soul like a cemetery
hard to ignore
we're sick to the core
a world's been buried
where love is the law
a youtopia

there is a home
beyond our bones
so connect
to the divine
it's ok to cry
yeah
soul like a cemetery
hard to ignore
we're sick to the core
a world's been buried
where love is the law
a youtopia
there's a place i wanna take you
a youtopia
there's a place i wanna take you
a youtopia
there's a place i wanna take you
where love is the law
a youtopia
