

Briskeby, Wide Awake

I'm only human, what a lousy excuse
but we're playing a game now, I'm meant to loose
consider me dangerous, consider us a crime
when I fall asleep now, I can't close my eyes

chorus:

wide awake, I'm wide awake and I say

I don't know how, I don't know when (repeat 1 more time)

it's you versus me now, just the two of us

hard to tell the difference between hated and lost

we can't stay together, we can't stay alone

a night full of pleasure, to scream and moan

chorus

repeat

chorus, repeats until fade
