

# Britney Spears, Body And Soul

Its getting late now  
Im on the train now  
On the way to your place  
Cant wait to see your face  
Last night was crazy  
Got hot and hazy  
Now wanna go around  
I know I sit like a whore in church  
You got the tools go ahead and work  
Like it and a big a fit  
How you got me open so fast so quick  
chorus  
Can you please this girl now  
Can you tease this girl now  
Take it back and out take it down  
Move around and keep it up allnight  
Can you tease this girl now  
Can you tease this girl now  
Take it back and out take it down and keep it satisfied  
This time Im ready for me to awake my body is calling your snake  
Im here full naked  
I want to escape  
7 miseries  
Your body and soul  
Verse 2  
Now time to lay down  
We gotta get down  
I wanna fool around  
Its good from that last control  
I wanna know how it feels inside your mouth  
You got me saying wow  
Im in the zone now  
Ive got to keep it on hold  
Itch it up and ready to go  
This guy to move to slow  
I want your body and your soul  
Chorus  
Body and Soul  
I know I sit like a whore in church  
You got the tools go ahead and work  
Like it and a big a fit  
How you got me open so fast so quick
