

# Britney Spears, Boom (And The Song Goes)

(Intro)

Everybody

Why y'all sweat me?

If you feel me come embrace me

It's my ambition to let you know..

That I like the way you're making me feel

When the walls tremble

Hand be humble

I want to say goodnight

But then you move

I see you rise

I'm searching for words

There's no description

(Chorus)

Boom you made me feel

Boom pump your brakes

It's how the song goes

It's like boom

You show up

Boom my body goes

Boom...and that's the way this song goes

(Verse 1)

Ok so maybe I'm 'Miss Britney Spears'

Guards by my side

Make up, wardrobe, smile and say cheese

But all that doesn't matter when I'm out with my hommies

Drop your drinks

Put my hair up

It's getting kinda steamy in here

When I'm on the floor, push aside my image

This is no animation

It's just a song

and it goes boom

(Chorus)

Boom what? boom where? boom how? boom when?

It's just the way this song goes

By your side

Light my girl up

Watch your step, it's getting kinda blurry

How could I surpass?

Have I met your expectations?

No this is no club song

No this is no fight song

Yes this my song

It's just a song that goes boom

Boom when you hear it

Boom when you feel it

Boom when you sing it

Boom boom boom

(Verse 2)

So now you wanna play?

Now you wanna dance?

After my approach?

No more questions?

This is my interview

How do you do?

Do you go boom?

Are you boom?

Will you make me go boom?

you know what goes boom?

Baby, you know what?

What goes boom?

Baby this

This does...

Song go..  
...Go song  
This song  
Hun , this song goes boom.
