

Britney Spears, How

how can u tell me its not real?

how can u tell me u dont feel... like i do.

we can save this...this is love we dont want to miss.

some questions can't be answered but how?

chorus-

how...how can u do these things to me

how...i dont know how u cant see

that you and i...baby, are meant to be

Sometimes i think...i can move on.

but how can i do that when my love is so strong.

i need u baby, more than u know

and i try to let these feelings show.

just tell me how...how can u do this?

repeat chorus

how

how can u do this to me

how

u said we were meant to be

how

i dont understand

how

we're not still holding hands

it was a fairy tale while it lasted...and i dont know how but....

its over.
