

Britney Spears, Kiss You All Over

I wanna kiiiiiiiiiiiiii you all over

Gimme that kiss
Gimme that kiss
Gimme that kiss
Gimme that kiss

Bet you if I kiss you all over
You won't wanna' get rid of none of this that you're feeling
Can't stop when you're kissing me
Bet you if I kiss you all over
You can tell that she'll be jealous
We can't help it
Nothing's wrong with kissing me

Wish you knew that all I did everyday
Just to keep my hands off you
(If you, if you)
Felt that y'all need to take a break
She just wanna argue
(If you, if you)
Felt this way, can't let nobody know this, OK
(If you, if you)
Taste it, I'll make sure you eat every crumb off the plate

(I need to think about it
Cause all your eyes are saying
That you wanna undress me)
She must not like to drink
'Cause if I was her I would sip on you all day
(I will see about it
But, babe, the problem's bigger than her you and me)
The boy I'm currently seeing is
6 foot 3 and too possessive

Bet you if I kiss you all over
You won't wanna' get rid of none of this that you're feeling
Can't stop when you're kissing me
Bet you if I kiss you all over
You can tell that she'll be jealous
We can't help it
Nothing's wrong with kissing me

(If you, if you)
Drop the ball
That might change everything I love about you
(If you, if you)
We should
Call this an affair
My kiss might hurt you
(If you, if you)
(If you, if you)

(I need to think about it
Cause all your eyes are saying
That you wanna undress me)
(I will see about it
But, babe, the problem's bigger than her you and me)

Bet you if I kiss you all over
You won't wanna' get rid of none of this that you're feeling
Can't stop when you're kissing me
Bet you if I kiss you all over
You can tell that she'll be jealous

We can't help it
Nothing's wrong with kissing me

Bet you if I kiss you all over
You won't wanna' get rid of none of this that you're feeling
Can't stop when you're kissing me
Bet you if I kiss you all over
You can tell that she'll be jealous
We can't help it
Nothing's wrong with kissing me
