

# Britney Spears, Sorrow

I see you dying without pain  
Poison pumping through your veins

When you're down and out  
Is it fun what is it all about

Can you live without tomorrow  
Can you live without today  
Questions full of sorrow  
But the pain is for you to pay

You tell me nothing else but lies  
Sweet sweet lullabies

When you're

Can you live

When you're stoned  
Soon entombed  
Can't you see It's not reality

Can you live...
