

# Britney Spears, What Love Is (Interlude)

(Sung:)

I guess this is what love is  
A very strange and mysterious thing  
All these mixed up feelings  
Can toy with someone's head  
If you're not careful  
Things can get out of control  
And soon  
You might not be in love anymore  
Take it slow  
Take it slow

Love can mean many different things  
There are upsides  
There are downsides

(Spoken:)

Look up, you have someone new to love  
And spend time with when you really need someone  
Look down, you have almost no free time  
No time to just be you and you alone

(Sung:)

I guess this is what love is  
This is what love is

Some can live without love  
Some can't live without  
Some people, they just don't know  
What love is all about

Love is a many splendored thing  
It can put you right where you belong  
I guess this is what love is  
I guess this is what love is  
What  
Love  
Is. . .  
I know that this is  
I know that this is  
I know that this is. . .  
That this is what love is
