

# Britny Fox, Long Way to Love

Long Way to Love (4:55)  
D. Davidson

I see the love deep in your eyes.  
You let the love, grow in my mind.

In the morning sun, I see your face.  
I can feel your love and your embrace.

You fell in love right from the start  
It has to last from falling apart.

repeat bridge

Long way, long way to love.  
Long way, long way to love.

Your fires kept warm in my heart.  
You fed the flame from going out.

Bridge, chorus, lead, chorus out.
