## Britny Fox, Look My Way

B. Child, T. Paris

With the lightening comes a time And I know Lord I know I see the changes come in you Baby And I know Lord I know

Just want to give it back All I took from you I got a lot To see it through

When you look my way I'm livin' higher than my yesterday When you look my way I see the love that's comin' back to me

Once you feel you got a part You gotta go You gotta go Did you ever see a smile? Kicks it off And it takes you home

Lookin' back on all the pain I put you through I'd die a thousand times To make it up to you

Take apart the feelings in your way Move along you'll live for everyday New tomorrow's comin' all for you Don't let the past rule if you win or lose
