

Britny Fox, Shine On

D. Davidson

There's a place where souls where souls live on forever.
There's a time where we all rest together, oh sometime.

Feeling better, living better, yeah, I see the lights.
There's a place where a light shines bright.

Shine on, shine on, shine on, shine on.

Peace on earth, spread love to your brother.
Loved ones gone, in your heart they'll live on,
live on and on.

bridge, chorus, lead, chorus out.
