

Britny Fox, Stevie

D. Davidson, B. Childs

You might have seen this girl, did you catch her name
Has she played the town, watch your step cause she's been around.

She was once my queen, my love, prize and dream.
She left her name around, a little sly way she sneaks around.

Cause I know what you might say, you wanna ask me if Stevie makes the play.
Cause I know, oh no, cause everybody wants to know about my Stevie.

My Stevie, my Stevie, my my Stevie.

Ya said your love for her is growing strong.
You're gonna find out soon, all things that she'll do to you.

Your life is on a knife, she says she's not that type.
You might as well take the blade cut yourself, yourself in two.

Bridge, chorus, lead, chorus out.
