

# Britny Fox, Turn On

B. Childs, T. Paris

You're out-dated  
Get a reason to kick it down  
You gotta feel it  
Crank it up till the killer's out

You got the fever  
Over-loaded on the heat again  
You're taking either  
Reachin' up for your # 10

Turn on higher than you ever wanted  
Turn on higher than you ever needed

You got trouble  
Falling off what you're hangin' on  
You got to get her  
Save the girl right before the dawn

You got the answer  
Shine a light from inside your head  
You win the dancer  
Now we all rock the world again
