

Britny Fox, Turn On

B. Childs, T. Paris

You're out-dated
Get a reason to kick it down
You gotta feel it
Crank it up till the killer's out

You got the fever
Over-loaded on the heat again
You're taking either
Reachin' up for your # 10

Turn on higher than you ever wanted
Turn on higher than you ever needed

You got trouble
Falling off what you're hangin' on
You got to get her
Save the girl right before the dawn

You got the answer
Shine a light from inside your head
You win the dancer
Now we all rock the world again
