

# Britt Nicole, Believe

Wait, wait, wait, there's somethin' that I gotta say  
It'll take, take, take, just a minute so don't walk away  
I search in circles for a remedy  
To fight the poison that is killing me  
It's like I'm falling fast head over feet  
Is anybody listening?

[CHORUS]

I wanna believe  
I wanna believe in love again  
I wanna believe  
I wanna believe in love again  
Tired of living this way, tired of everyday  
So will you help me  
I wanna breakthrough  
I wanna believe in you  
Hey, hey, hey, why is everyday the same for me?  
Fake, fake, fake, just pretend what I'm suppose to be  
I need an answer for my remedy  
I need a Savior 'cause I'm in too deep  
I reach up,  
Will You reach down here to me?

[CHORUS]

You found me, You were looking for me  
You found me, You were looking for me  
You found me, You were waiting for me  
I can see Your love  
You found me, You were waiting for me  
I can see Your love  
I believe in You, I believe in You, I believe in You  
I believe in You, I believe in You, I believe in You

[CHORUS x2]
