

BROCKHAMPTON, Any Way You Want Me

And you can take me
Any way you want me
I know you hate me
But what if I could change?

And, baby, you're still my best friend even when I don't see you
You're still my best friend even if I don't need you
Still my best friend even when I don't see you
I promise, oh, I promise

And you can take me
Any way you want me
I know you hate me
But what if I could change?

That's such a toxic bar, it's like
I know that you don't like who I am, but I'll change for you
I'll change for you right now
I'm always into toxic relationships
BROCKHAMPTON
