

BROCKHAMPTON, TRIP

[Chorus: Kevin Abstract]

Today I'ma be whoever I wanna be
Today I'ma be whoever I wanna be
It's a boy fantasy, it's a girl fantasy
This is our fantasy, baby boy, boy, boy
Today I'ma be whoever I wanna be
Today I'ma be whoever I wanna be
It's a boy fantasy, it's a girl fantasy
This is our fantasy, baby boy, boy, boy

[Verse 1: Kevin Abstract]

Flap, flap, flap your wings, go high
Go high, go high
Ride, ride, ride, ride, ride around the night
This little town, I wanna say goodbye
To everybody here 'cause they're all the same
I hate this place
And everybody here act all the same
Life's a disgrace

[Chorus: Kevin Abstract]

Today I'ma be whoever I wanna be
Today I'ma be whoever I wanna be
It's a boy fantasy, it's a girl fantasy
This is our fantasy, baby boy, boy, boy
Today I'ma be whoever I wanna be
Today I'ma be whoever I wanna be
It's a boy fantasy, it's a girl fantasy
This is our fantasy, baby boy, boy, boy

[Verse 2: Ameer Vann]

Flying on my rocket ship (Ay!), I'm on an acid trip (Ay!)
I need another pill, snort and let it drip
I'm with my white friends, we getting wasted
Trapped in the suburbs, we suffocatin' (Ay!)
We get all the drugs (Ay!) and education
"You came with Black folks?" Oh, your parents racist?
You say they hate me? Well, I love them
We still roll up, we still best friends (Ay!)

[Verse 3: Dom McLennon]

Everybody smilin', I don't see what's funny
Everybody friends, guess I wasn't lucky
Family full of athletes, I was kind of chubby
Shit was never sunny, wrists were sorta bloody
Lick my wounds with honey, save me for the vultures
I'm fallin' in the void, I don't know what I discover
I know I could hear the thunder, I can feel the hunters
They be preying on my hunger, I won't let 'em make me suffer 'cause

[Chorus: Kevin Abstract]

Today I'ma be whoever I wanna be
Today I'ma be whoever I wanna be
It's a boy fantasy, it's a girl fantasy
This is our fantasy, baby boy, boy, boy
Today I'ma be whoever I wanna be
Today I'ma be whoever I wanna be
It's a boy fantasy, it's a girl fantasy
This is our fantasy, baby boy, boy, boy

[Outro: Joba]

Oooh, take a moment
Do you take a moment?
Do you take a moment?

Oooh, take a moment
Do you take a moment?
Do you take a moment?
