

# Brodie, Leave This Town

So sick of this place  
Same thing everyday  
Something is in my way  
But I was born and raised in this dead end town  
Where everyone is here to stay

Don't want things to be  
The same for me  
Got to get out right now  
And start to live my life  
How it's meant to be  
Pick myself up off the ground

So let's jump in my car and get out of this city  
Crank the music loud and say goodbye  
we've got places to see  
Why won't you come with me?

I want to run away but nobody will leave with me  
I want to leave this town  
One day it will drive me crazy

Got to break this mold  
22 years old and still haven't done a thing  
But I've got all these dreams and all these goals  
Want to make them reality

So let's jump in my car and get out of this city  
Crank the music loud and say goodbye  
we've got places to see  
Why won't you come with me?

I want to run away but nobody will leave with me  
I want to leave this town  
One day it will drive me crazy
