

Brodka, Santa Muerte

Hey, little DEATH I can feel your breath UPON my neck

Hey, not quite yet
Come with me and I will make you tame

So you will find
The magic light

Hey, what's in your mind
You will never stop to wonder why

Hey, I will come
Take your hand
Together we're one

So, you and I
Will rule the night

Bring your love and say
Nothing is wrong
I'll carry your bones wherever
Bring your dusty wreck
Keep me with you
Hold me
I will stay forever

Hey, sing with me
Father Day
How sweet it would be

Oh, Mother Night
Fear the Day
I wish it never may come

Soon what was said
Will be undone

Bring your love and say
Nothing is wrong
I'll carry your bones wherever
Bring your dusty wreck
Keep me with you
Hold me
I will stay forever
