Brodka, Santa Muerte

Hey, little DEATH I can feel your breath UPON my neck

Hey, not quite yet Come with me and I will make you tame

So you will find The magic light

Hey, what's in your mind You will never stop to wonder why

Hey, I will come Take your hand Together we're one

So, you and I Will rule the nigh

Bring your love and say Nothing is wrong I'll carry your bonest whrever Bring your dusty wrack Keep me with you Hold me I will stay forever

Hey, sing with me Father Day How sweat it would be

Oh, Mother Night Fear the Day I wish it never may come

Soon what was said Will be undone

Bring your love and say Nothing is wrong I'll carry your bonest whrever Bring your dusty wrack Keep me with you Hold me I will stay forever
