Brolle Jr, Now That She's Gone

Haven't you heard The day I first met her She changed my world How could I just let her She had me right then Oh, from hell to heaven How could I let her go

Another day
Can't find my way now that she's gone
-□And now that she's gone
An endless night
Can't see the lgight now that she's gone
-□Can I can't go on
Now that she's gone

She turned black to white Still I couldn't find it She made my wrongs feel right And now I feel blinded

She had me right then Oh, from hell to heaven How could I let her go

Another day...

The end has begun
It's taken some time but now I know
The moon and the sun
They share the same heaven
Still I let you go

Another day...
