

Brooke Allison, Put It Together

It's magic

Mirror mirror on the wall
Can you picture me at all
I could be whatever I want to be
I can make my story change
Just like in a picture frame
Magic spells and fairy tails
Pennies in a wishing well

Pick up the pieces
You just look inside

[Chorus]
When you put it together
It's magic
You go alacka, alacka zoom
When you put it together
It's magic
All you need is inside of you
So put it together
And go bibbidi, bobbidi boo

Everybody has their chains
Sometimes it's like it never seems
that your wish will change to reality
But if you feel you had enough
Don't you think of giving up
There's no mountain you can't climb
One step at a time

All that you needed
Was there all the time

[Chorus]
When you put it together
It's magic
You go alacka, alacka zoom
When you put it together
It's magic
All you need is inside of you
So put it together
And go bibbidi, bobbidi boo

All that you needed
Was there all the time

[Chorus]
When you put it together
It's magic
You go alacka, alacka zoom
When you put it together
It's magic
All you need is inside of you
When you put it together
It's magic
You go alacka, alacka zoom
When you put it together
It's magic
All you need is inside of you
So put it together
And go bibbidi, bobbidi boo
