

Brooke Hogan, Everything To Me

You wanna go,
And as you open up the door,
You change your mind,
I'm not something to leave behind.
You'll never know,
All these things i feel inside,
I wanna show you, theres nothing out there to find.
Oh baby i , i wanna make u see,
Theres nothing more to fear,
Cuz everythings right here.

I'm everything you want,
I'm everything you need,
And every little part of you, is a part of me.
I'm everything you know,
I'm everywhere you go,
And i hope that youll see,
That youre everything to me (oohh yeah)
Everything to me (yeah)

This part of me,
I hang on every word you say.
Dont tell me no,
As you turn and walk away.
Dont shut me out,
I'm much stronger than you know,
But youre on your way,
You'll be back with me someday.
Oh baby i, i wanna make you see,
Theres nothing more to fear,
Cuz everythings right here.

Im everything you want,
Im everything you need,
And every little part of you, is a part of me.
Im everything you know,
Im everywhere you go,
And i hope that you'll see,
That youre everything to me (oohh yeah).

I understand your confusion, in denial, disallusion
I wont wait too long
& I just might move on
I'm buried by your indecision
Digging for the life im missing.
Just look inside and see, i hope theres room for me

Oh baby i , i wanna make you see, (yeah)
Theres nothing more to fear,
cuz everythings right here.

(x 3 till fade)
I'm everything you want,
I'm everything you need,
And every little part of you, is a part of me.
I'm everything you know,
I'm everywhere you go,
And i hope that youll see...
