Introducing to you Brooke Hogan

(Brooke Hogan)

I could be your flower baby

I could be your heart baby

I could be your power baby

I can make you smile baby

I can make you dance baby

I can make you sing baby

I could set you on fire baby

I could be your star baby

I am your kind i live a real good life

But something is missing

In my paradise

Boy you hold the key

I saw you in my dreams

Like an angel without wings

I want you here with me

(picture)picture You and me in the breeze

You and me in the trees

You and me floating

To heaven baby

To heaven baby

You and me in sea

You and me running

You and me floating

To heaven baby

To heaven baby

I could be your remedy

And give you the good shit you need

I could make it better baby

I know these things

I could wear you on my sleeve

Even when you're makin' me bleed

I love it when ya down on your knees

That's when you need me baby

I am your kind i live a real good life

But something is missing

In my paradise

Boy you hold the key

I saw you in my dreams

Like an angel without wings

I want you here with me

(picture)picture You and me in the breeze

You and me in the trees

You and me floating

To heaven baby

To heaven baby

You and me in sea

You and me running

You and me floating

To heaven baby

To heaven baby

I wanna be the one that you call
Be the one above all
Be the one that you want for life
Be the one that you call
Be the one above all
Be the one that you want for life
