I could be your flower baby  
I could be your heart baby

I can make you smile baby  
I can make you dance baby  
I can make you sing baby  
I could set you on fire baby  
I could be your star baby

I am your kind i live a real good life  
But something is missing  
In my paradise  
Boy you hold the key  
I saw you in my dreams  
Like an angel without wings  
I want you here with me

(picture)picture You and me in the breeze  
You and me in the trees  
You and me floating  
To heaven baby  
To heaven baby  
You and me in sea  
You and me running  
You and me floating  
To heaven baby  
To heaven baby

I could be your remedy  
And give you the good shit you need  
I could make it better baby  
I know these things  
I could wear you on my sleeve  
Even when you're makin' me bleed  
I love it when ya down on your knees  
That's when you need me baby

I am your kind i live a real good life  
But something is missing  
In my paradise

Boy you hold the key
