

Brooke Hogan, Suckers Are Hiding

[Iriscience]

Uh, Platform Squadron

Dilated Platoon, Evidence infantry

Babu heavy artillery

Rakaa Iriscience communications, stealth operations

Platform Squadron, Soul Assassins, The Alchemist

Suckers are hidin

[Evidence]

Yo turn the power on, insert the disk

Tonight you ain't the joint if you ain't Muggs or Alchemist

Most kids shoulda listen, my catcher should warn ya

(Fuck down the center, it's about brushin the corners)

Evidence, the main element to mystery

Try to seize the moment, the future just was history

Intelligent, they gasped, the industry detected

I knew superstarts who now can get arrested

Love rhymes off the shit I thrive

Tried but couldn't get in to see KRS live

Document my thoughts in order as they come

(That's the sound of the man!) Obsessed wit drums

Beat up the one, kill the two-three etcetera

Four starts the war, repeat the loop, beats competitor

For better or worse, edit my curse, still explicit

Vocals intact, your logos could never diss it

So check it out, exhale the blown trees

Don't miss a thing, dot my I's, cross my T's

From seven seas yo yo to seven continents

From the alphabet, vowels and consonants

Babu cutting up sample

"Suckas are hidin" [B-Real]

[Iriscience] *in background*

Now you know, suckas be hidin

But they can't dodge or they can't camouflage

Platform is in full effect

Evidence, Iriscience, Babu

The Alchemist on the track, pushin buttons

Pullin strings, the Dilated Wild Style

The globe trotter, earth, wind, fire and water

Turnin local rappers into neighborhood martyrs

Platform's home, the city and spot blown

I got poems that burn more ears than hot combs

I motivate, live on stage, there's no debate

Babs, you got time in the pocket, throw the break

I take it to the brink when decoding the snake

In Holland, next to Fat Beats, rollin the dank

Dilate, build upon the Aquarius dawn

And they how they call the Hollywood branch to Magic Juan

The specialist is on, my people have been scarred

Basically, Babylon where Barbie and Ken star

Assassin got Soul plus self control

Breathe how they breathe and slip past patrol

Appreciate the art so I use my bow

Maybe load a poison dart in the tube and then blow

I make crowds explode wit the beats and rhymes

When it's time to overthrow then you'll be assigned

Exercise caution, speakin revolution

I could do alone it but together we're too strong

"Suckas are hidin" *Cut and scratched by Babu*

[Iriscience]

Ahah, Dilated, full effect

Stealth, makin moves, unseen but felt

Uh Babu, uh uh Evidence roll out

Uh Alchemist roll out, Iriscience

Soul Assassins, Muggs
