[Verse 3: Mr. Doctor]

Come with me deep see how I'm bout to do it for this  
Back with tight big shit

So move on with they life one even left  
That since that time I haven't heard from him  
Now that's my locc right damn, where'd you go folks?  
Remember we're supposed to be the ones with brains this locc's  
So nigga fuck it, i'll do it like your ass is dead  
And touch them niggas with the Mac-11 out of the shell

See your niggas on the other side is best to hit the floor  
And watch them flesh-shredders bout' to rip your asshole apart  
And now it is said and what was said  
Will come to pass from Mr. Doc amen, God bless your ass

Chorus: repeat 2X

Locc to da brain insane every day all day it's E-B-K  
Where niggaz load they straps cause the rival's on the way

[Verse 4: Baby Reg]

See I was standing in the middle of a circle cuz' a nigga is trying to jack me  
With a nine-millimeter ruger and a six deep posse  
But I ain't going out for a jack move  
The only thing on my mind  
Is pullin my nine and just handling in these fools  
Now tell me what you busters want with me?  
They started talking about pockets on the ground you mean  
Empty my loot out, you fools must be smokin' sherms  
But i'll be glad to put my strap up in your face and let some gun powder burn  
Now take a lesson from a Sac-Town criminal  
I'm standing all alone in the street  
And talkin shit to your circle and ain't no blastin y'all must be bluffin  
Threw up my sign and grabbed my nine-millimeter nine  
And started bustin on niggas and watching every muther fucker try to run  
That locc to da brain got a nigga insane with a fucking empty gun  
So imma continue to strike and stay alone and maintain my self-pride  
Cuz' when I ride it's always locc to da brain

Chorus: repeat 2X

Locc to da brain insane every day all day it's E-B-K  
Where niggaz load they straps cause the rival's on the way

[Verse 5: Brotha Lynch Hung]

You can't see me for the fact that the inside of my strap's in your sight  
Bout' to put some slugs in your throat and put your guts in my coat and hit  
the night Drop a sack of indo in my pipe and it's  
EBK everyday all day til the day I hit my grave-sight  
That locc to the brain cuz' it's all redrum  
A couple of hits from the purple spliff  
and I'm workin a fifth of the coke and rum  
I have my twelve gauge-pump decorating niggas brains  
Nigga nuts and guts is how we get sick them Northern Cal slayings  
That locc to the brain shit ain't no game it's a gang  
Them niggas that killed they mama for some fame it ain't no thang  
It ain't no way, I dump and let them niggas live  
Cuz' where I'm from we rockin up on em'  
bustin them reps up in them niggas ribs  
It's twelve-o-clock full of that spliff full of that ammo in my glock-nine  
Creepin through your set hit the stop  
Sign sideways bustin I see gat twenty-four C's  
Feel the breeze from the slugs in my nine now  
Rest in peace

Chorus: repeat 4X

Locc to da brain insane every day all day it's E-B-K
