

# Brother Cane, The Crow Flies

(Johnson, Gray)

Sleep

Just a reason to

Escape

All the dog wars

Track

Every move they ever

Make

And I'm religious one time

Blow apart understanding

Will it ever change?

Don't believe what you're thinking

Draw the line in your own way

Sun

Crashing down around my

Bed

Like dirty murder

Me

With a glass of broken

Pride

Can I get a witness today?

Say what you wanna

And release it all

Take a walk till I'm dizzy

The crow flies in me

A soul you can't see

The crow flies in me

The crow flies...
