

# Bruce Springsteen, When You Dance

When you dance  
I hear the music rocking everywhere  
When you dance  
I see the lights shining through your hair  
When you dance  
The band is blowing like a hurricane  
When you dance  
You look so fine but you don't know my name

Come near baby, don't be afraid  
Just one taste won't do  
I can't hold back one more day  
Sugar I know I got to dance with you

When you dance  
Your smile ain't hiding what you're thinking of  
When you dance  
Your body trembles like you're making love  
When you move, baby  
My soul is aching and my blood runs hot  
Run into me now

My heart is breaking, shaking what you got

Come near baby, don't be afraid  
Just one taste won't do  
I can't hold back one more day  
Sugar I know I got to dance with you

Shake 'em down now

Come near baby, don't be afraid  
Just one taste won't do  
I can't hold back one more day  
Sugar I know I got to dance with you

Oh yeah baby  
When you dance  
I hear the music rocking everywhere  
When you dance, baby  
This time you tumble, honey, I don't care  
When you dance
