## Bryan Adams, I Want It All

I don't need no million dollars - just need a couple of bucks don't need no life insurance -I just need a little luck I don't care if the sun don't shine - as long as it don't rain all week and I don't care if I don't reach the top - but when it comes to you and me ... oh ya

I don't need a piece of your heart oh ya - I'm in need of every part I want it all - I want it all I want everything you got I don't need a piece of your heart I want it all

I don't wanna go through no long good-bye's - I don't mind being apart I don't need no fancy car - as long as we can make it start...oh ya

I don't need a piece of your heart oh ya - I'm need of every part I want it all - I want it all I want everything you got I don't need a piece of your heart I want it all so'ill sister come to me - put everything in harmony - irie!
