

# Bryan Adams, Low Life

I've been on my best behaviour  
my conscience is a little too clean  
my halo's just a little too tight now  
I'm tired of the old routine

So baby lets get down and dirty  
forget about right from wrong  
I wanna sleep in a cheap motel room  
with nothing but the tv on

We need a little of the low life  
to keep our feet on the ground  
just a little of the low life  
sooner or later we gotta get down to the low life  
Yeah !

Well I don't wanna talk religion  
don't wanna talk politics  
I don't wanna talk at all babe  
I just wanna get my kicks  
so c'mon baby let your hair down  
you can chuck your pearls out the door  
just a little black lace and a smile on your face  
never need nothing more.

We need a little of the low life  
to keep our feet on the ground  
just a little of the low life  
sooner or later we gotta get down to the low life  
Yeah  
I'm talking low babe

Now baby you don't wanna talk about your day  
and you sure don't wanna hear 'bout mine  
I'll meet you at the notell motel  
underneath the vacancy sign  
we need alittle of the low life  
to keep our feet on the ground  
just a little of the low life

Yeah sooner or later you gotta get down to the low life  
just a little bit of foolin' around  
we need a little of the low life  
oh babe  
we need a little of the low low life yeah  
let's get down and dirty low, low life
