## Bryan Adams, Low Life

I've been on my best behaviour my conscience is a little too clean my halo's just a little too tight now I'm tired of the old routine

So baby lets get down and dirty forget about right from wrong I wanna sleep in a cheap motel room with nothing but the tv on

We need a little of the low life to keep our feet on the ground just a little of the low life sooner or later we gotta get down to the low life Yeah!

Well I don't wanna talk religion don't wanna talk politics I don't wanna talk at all babe I just wanna get my kicks so c'mon baby let your hair down you can chuck your pearls out the door just a little black lace and a smile on your face never need nothing more.

We need a little of the low life to keep our feet on the ground just a little of the low life sooner or later we gotta get down to the low life Yeah I'm talking low babe

Now baby you don't wanna talk about your day and you sure don't wanna hear 'bout mine I'll meet you at the notell motel underneath the vacancy sign we need alittle of the low life to keep our feet on the ground just a little of the low life

Yeah sooner or later you gotta get down to the low life just a little bit of foolin' around we need a little of the low life oh babe we need a little of the low low life yeah let's get down and dirty low, low life
