

Bryan White, Nickel In The Well

I've got a four leaf clover
I hung a horseshoe on the wall
I threw salt over my left shoulder
I'll try anything at all
To get lucky with you
I want you so much
Until you want me too
I ain't gonna give up

Chorus:

I'll throw another nickel in the well
Tell myself this time maybe it'll help
To make my dreams come true
I'll make another wish upon a star
Just in case you're out in your backyard
Lookin' up there too
With a lot of love and a little luck
You'll fall like I fell
I'll just cross my fingers
And throw another nickel in the well

If I could get Houdini
To teach me a trick or two
Then maybe you would see me
In the way I want you to
Gonna knock on wood
It ain't been easy
I've done everything I could
To make you need me

REPEAT CHORUS

With a lot of love and a little luck
You'll fall like I fell
I'll just cross my fingers
And throw another nickel in the well

Yeah, just cross my fingers
And throw another nickel in the well
