

Bryan White, That Good

I can feel sorry for my friends, they must be tired
Of all the fuss that I've been making
But since last night I'm feeling so inspired
It's like a dream and I'm not waking
If they could hear you whisper they'd agree
It's more than a love song, it's a symphony

It was that good, it was that right
That chance you get once in your life
The answer to the prayer my heart's been praying
It was that real, it was that strong
That feeling just can't be wrong
I'd go on forever if I could
It was that good

Suddenly I'm saying things I've never heard
My soul is doing all the talking
If it was ordinary you wouldn't hear a word
I'd keep it to myself and just keep walking
But it's no secret what you've done to me
There's no doubt in my mind girl, I believe
The more I think about it
Don't know how I lived without it
It's given new life to me, to know you agree
