

Bryan White, Way You Look At Me

Your beautiful eyes,
sparkle like two diamonds on fire
Why am I still surprised at the way
they make me feel

I thought I could get no higher
You showed me a whole new deal
It's not the way you look,
it's the way you look at me

Most any old time,
could be a special occasion
Just call me and I'm
already halfway there

You choose the destination,
I'll go with you anywhere
It's not the way you look
Even though heaven knows
you're a sight to see
It's not the way you look,
it's the way you look at me
Like I'm all you ever wanted me to be

--- Instrumental ---

It's not the way you look
Even though heaven knows
you're a sight to see
It's not the way you look,
it's the way you look at me
It's not the way you look,
it's the way you look at me...
