

BTS (방탄소년단), Louder than bombs

Now it has gawn to be so clear
the unfamiliar shadow admist those cheers
Perhaps I wouldn't be able to believe the words
Let's see and hear only good things
No more
Your silent sadness
It shakes me
In my quiet sea
Waves would sometimes rise

Louder then bombs, I break
All the pain pour out
From the moment I knew
The expression you had on wasn't that expression
Louder then bombs, I break

Baby, I'm nothin'er than nothin'
Brighter than the light
Don't you want a thing from me
But you say I'm somethin'er than somethin'
Brighter than the light
Don't you give up your life
Here I stay, pray
Just for better days
Everyday a maze
Wonder if this is my place

Where's my way?
The ground keeps quaking
I collapse on my own, mute
Louder than bombs, yeah
I want to tell you, that darkness
Exists everywhere, don't be afraid of it
Whatever night may swallow me, I won't give up
The fight for you, we'll shine

You and I, we feel it together
Sadness and pain
It's not a coincidence
Yeah, we picked this game

Louder than bombs, I say (Ah)
I'll tell it in front of the world (Ah)
The times I've ignored you
The days where I kept running away, there won't be any more
Louder than bombs, I say (Oh, oh, oh)

People say they're jealous of us
The pain I have, they say it's hypocrisy
No matter what I do, I get caught up in shit
If not us, yeah, who will do it?
People say they're jealous of us
The pain I have, they say it's hypocrisy
No matter what I do, I get caught up in shit
If not us, yeah, who will do it?

Louder than bombs, I sing (Oh, oh, oh)
Make a promise for you and I (Oh, oh, oh)
Whatever wave may sweep over us
We will endlessly sing to you
Louder than bombs, I sing (Oh, oh, oh, oh)
