

Bubbles, Excited

Want it to be like a fairytale
Where the boy gets the girl in a ponytail
Like in the movies there's always a happy ending
So lets get away on a motorship
We can go on a beach we can take a dip
And it's always gonna be like this
We're happy together

(Chorus):

I get so excited and I just can't hide it
I get so excited and I just can't hide it
Pick up the phone my heart starts pumping
Voice in my head tells me this is something
I get so excited with you in my world

Want it to be like a dream come true
Holding hands in the dark, only me and you
Like in the movies - there's always a happy ending
So lets get away on a motorship
We can go on a beach we can take a dip
And it's always gonna be like this
We're happy together

(Chorus x 2)
