

Buck, All Around The World

All around the world, I'd go all around the world with you!

Take a trip on a striped white aeroplane
Go go go take a tour on a paris train
Hurry scurry hurry when the kids love what we do

All around the world, I'd go all around the world with you!

All around the world, I'd go all around the world with you!

Beaten up or beaten back, don't you love the london rain
Come a drizzle watch us sizzle on the spanish mainland sand
Pack it up, count me in, let's see peru...

All around the world, all around with you-

There's no turning down (no way!)

I'd go all around the world
There's no slowing down
We'll go all around the world

All around the world, I'd go all around the world with you!

Money tight, fly all night, here we go japan!
Watch the kids shout in words I don't understand
Pack it up, count me in, it's what we do...

All around the world, all around with you-

All around the world
We'll go all around the world
There's no slowing down
Cause we'll go all around the world
