

# Buck, Come Back

Come back, baby, come back  
Don't walk; run back  
I don't wanna hear no talk back  
So come back, baby, come back

I saw you downtown in the gutter, sucking on a stick of butter / you pathetic little creature  
Come back, baby, come back

Happy happy monkey head I want you in my bed  
Come back baby comeback  
Comeback baby come back

I went to the doctor; he told me I was sick  
Said you better come back, baby  
Said you better kiss me quick

I fooled you once, I fooled you twice but  
This time, baby, I'll be nice so come back, baby, come back...

Shimmy shimmy coco puff you know you ain't had enough  
Come back baby come back, come back baby comeback

(hit me!)

Monkey! monkey! monkey! monkey!

I saw you downtown...

Come back, baby, come back...

Come back to me
