

Buck-O-Nine, Something Funny

I have waited for you
Every morning
Self supporting
I deploy and listen for it now

It gets written on your face
And then you go to face it
Let's embrace it
Or erase it now

Liar

I think that something funny
Happened to me
I said
I think that something funny
Happened to me
I said
I think that someone should erase this
Or just face it

This a situation
Understated, complicated
Don't avoid the issue
What's the cause?

It's so written on your face
When you go to face it
Let's embrace it
Or erase it now

I was always holding on
Involving us, recalling
Waiting for that moment to arrive
