

Buck Owens, Band Keeps Playin' On

You walked in with me but you walked out with someone else
And left me sitting here alone all by myself
I thought you were over him but I was wrong
My world stopped but the band keeps playin' on
They just keep playin' they don't notice you were gone
You walked right out on me while they played our favorite song
And before you reached the door my teardrops hit the floor
My world stopped but the band keeps playin' on
[steel - fiddle]
Well you said you'd forgotten him and no more did you care
But when we walked in your eyes lit up as you saw him sitting there
Well he asked you to dance and just like that you were gone
And my world stopped but the band keeps playin' on
They just keep playin'..
