

Buck Owens, I Know That You Know

I jump when you yell like a good little boy
I dance when you sing like a good little toy
I'd leave in a minute and head down the track
But you and I know I'll just have to come back.

Yes, I know that you know that I love you
As sure as the stars shine above you
You don't have a care and I don't have a prayer
And I know that you know that I care.

--- Instrumental ---

I'd come when you call like a good little clown
I make with the jokes and I jump up and down
I'd say that I'm leaving but you and I know
That I'm only talking to hear the wind blow.

Yes, I know that you know that I love you
As sure as the stars shine above you
You don't have a care and I don't have a prayer
And I know that you know that I care.

You don't have a care...
