Buck Owens, If I Had You Back Again

If I had you back again I'll tell you what I'd do I'd dance a little jig of joy and turn a flip or two My blue days would be over my long nights at an end My heartaches would all vanish if I had you back again.

If I had you back again your sweet lips I would kiss There'd never be a lonely moment only happiness Hand in hand together we would find the rainbow's end I'd walk the straight and narrow if I had you back again.

--- Instrumental ---

If I'd just one life to live I wanna be with you And find again the feeling of a love that's sweet and true I'd turn my back on everything my wild life I would end I'd change my ways tomorrow if I had you back again.

I'd walk the straight and narrow if I had you back again...
