

Buck Owens, My Saviour Leads The Way

I have a safe and sure retreat where I'm alone with God
A perfect peace and happiness where sorrow never trod
Oh praise his name his holy name salvation full and free
Oh glory to the blessed lamb my Saviour leads the way
My Saviour leads the way my Saviour leads the way
My soul was lost in deep despair till Jesus came to me
But now I'm safe thank God I'm safe because of calvary
I'm following his footsteps my Saviour leads the way

[steel]

My burdens all seem lighter when I steal away and pray
I feel his presence and I know he's with me all the way
Alone with him I'll watch and wait I know it won't be long
Till I shall stand before my Lord and sing a happy song
My Saviour leads the way...
