

Buck Owens, Where Has Our Love Gone

Whatever happened to tenderness
It just disappeared with gentleness
Oh, did they run away with togetherness
Oh, where has our love gone.

Where has our love gone
What's happened to you and me
Who's to blame for all of this pain
And where has our love gone.

--- Instrumental ---

Once we were blessed with happiness
Once there was no place for loneliness
Now all I've got is forgetfulness
Oh, where has our love gone.

Where has our love gone
What's happened to you and me
Who's to blame for all of this pain
And where has our love gone.

Oh, where has our love gone...
