

Buckcherry, Late Nights And Voodoo

Listen can you hear the disaster....yeah
It's there about a quarter a mile
I just want to see you happy
I just want to see you happy

*

Falling into you, I can't afford to stay
Your late nights and voodoo
I love your evil ways
Can't sleep cause it's a long flight
and there won't be a cure tomorrow
Hang tight I'm grooving
don't you believe in anything at all

Tell me are you scared of rejection
Cause every no leaves room for a yes
And I just want to see you laughing
I just want to see you laughing

(*Repeat)

Baby I love your evil ways
Sun light, creeping through an open shade
It means a lot to me when you feel me with your eyes
There is a place for you won't you
Come and sit inside
But don't you believe in anything at all
Don't you believe in anything at all....
You just don't mind the get down
you just don't mind the pain
Everyday, everyday, everyday, yeah....

(*Repeat)
