

# Buckcherry, Rescue Me

You can't erase what's deep inside of me,  
I know I'm not a sight to see,  
but baby I'm alive.

I cherish the love and I cherish the life that's inside of me,  
I know I'm not a sight to see,  
but baby I'm alive.

Won't you come and rescue me,  
seperate myself from me,  
maybe I'm to blind to see,  
save my life - and rescue me.

I lie awake, it takes it's toll on me,  
and now my broken heart it bleeds,  
but baby I'm alive.

I cherish the love and I cherish the life that's inside of me,  
and now my broken heart it bleeds,  
but baby I'm alive.

Won't you come and rescue me,  
seperate myself from me,  
maybe I'm to blind to see,  
save my life

Won't you come and rescue me,  
I'm far away from what I need,  
help me now I'm way to deep,  
save my life...

It's not over now,  
and I just wanna say,  
you never be left out,  
I love you more today.

It's not over now,  
no more time to waste,  
kiss me on the mouth,  
and take my breath away.

I cherish the love and I cherish the life that's inside of me,  
I know I'm not a sight to see,  
but baby I'm alive.

Won't you come and rescue me,  
seperate myself from me,  
maybe I'm to blind to see,  
save my life

Won't you come and rescue me,  
I'm far away from what I need,  
help me now I'm way to deep,  
save my life - and rescue me.
