This just in: we have unconfirmed reports that Tokyo is under attack.

By a 50-foot man, with a ... white face?

A chicken bucket on his head, carrying an enormous guitar.

According to this report, whenever he plays a note,

The sonic waves cause whole buildings to explode,

Streets to buckle and split,

And vehicles to fly about like toys!

I come in peace

I come in peace

I come in peace

The defense command has ordered all citizens to evacuate immediately!

People from sector 4 please report to the bus depot in sector 3 --

Sector 5 proceed in an orderly fashion to sector 6 --

Sectors 1 and 2 board the bullet trains without delay -- WAIT! --

We have visual contact -- Look at the size of those shoes!

Who is this giant? Where did he come from? Where is he going!?

What's he playing? What's he saying? RUN FOR YOUR LIVES!

I come in peace...

It seems that this gargantuan figure is only destroying chicken outlets.

The liberated chickens appear to be ... following him!

A white wave of feathered friends, uh, isn't this the year of the rooster?

And here come the children following close behind, huh!

They're all headed toward a giant fortified chicken coop on Mt. Fuji!

Ha ha ha ha ha ha ha ha!

AAAAAH I screwed up!

ha ha ha ha ha haa, wipeout!
