

Bucklew Wendy, Good Answer

Out! Out damned spot
I need somethign stronger
I'm copping a whiskey strut
Pushing the mood swing
Dodging the "you always..."
and "you never..."
Doubts like weeds that stifle pleasures
Oh, no I don't
Don't do this
I see it in your eyes
Because I know it in myself
Here lies the truth
I'm beside myself beside you
I'm farawayupclose inside you
I'm wide awake in my dream
Nick names and private jokes
Telling "when I was a kid,
I used to..." stories
Beautiful beneath your hand
I fall, I fly, I understand
This is why

"Hold on a sec"
I'm like a kid in the car
You won't be long
My knuckles are white
I am trying not to tug
You said no one could be your only one
I learn to never be enough
No, don't
Don't do this
Beneath the waves
where you could breathe like in your dream
I upon the horse I never had
that always had a name (Jigsaw)
Beautiful beneath your hand
I fall, I fly, I understand
This is why
