

Bucklew Wendy, I Know The Feeling

Is there a love in your life
Your lucky charm
Your secret vice
Who touches you in all the right places
One who takes their time
One who takes your breath
And sends you up, up, up, up high?
I know
I know the feeling well
I know
I know the feeling well
There's a love in my life
My other wing
My tunnel's light
Who reads to me from all the best pages
One who takes their time
One who takes my breah
And sends me up, up, up, up high
I know
I know the feeling well
I know
I know the feeling well
Let all the love inside come out to play
Tag! You're "it"!
But don't run away
